1.0 INTRODUCTION

The Equal Status Acts 2000 (as amended) require the Irish Institute of Pharmacy (IIOP) to make reasonable accommodation where a pharmacist selected for Practice Review, who has a disability or has a specific learning difficulty, would be at a substantial disadvantage in comparison to someone who does not have a disability or learning difficulty. The IIOP is required to take reasonable steps to overcome that disadvantage. This policy outlines the processes to follow in applying for a reasonable accommodation in relation to all components of Practice Review and the basis for which reasonable accommodation can be granted.

2.0 DEFINITIONS

2.1 Reasonable Accommodation

Anyone providing a service to the public has a duty to make the service equally available to as many people as possible. If a person with a disability is prevented from accessing the service in the normal way, the person or organisation providing the service has a duty to do all that is reasonable to accommodate them in accessing it. The particular arrangements that need to be made are then called “reasonable accommodations”.

A reasonable accommodation for a pharmacist selected for Practice Review may be unique and how reasonable the accommodation is will depend on a number of factors including the needs of the pharmacist. An accommodation may not be considered reasonable if it involves unreasonable costs, timeframes or affects the security or integrity of Practice Review.

The needs and circumstances of each pharmacist are different. The IIOP will consider any request for a reasonable accommodation on a case-by-case basis.

The format of Practice Review will also have a bearing on whether a requested reasonable accommodation is permissible. The competence level of Practice Review cannot be altered.

The IIOP reserves the right to seek independent advice to ensure any accommodation or arrangement is appropriate and in accordance with any applicable legislation.

2.2 Access Arrangements

Access arrangements enable pharmacists with special educational needs, disabilities or temporary injuries to:

- a) access Practice Review;

- b) demonstrate what they know and can do without changing the competence level of Practice Review, or provide an unfair advantage over participants who do not request a reasonable accommodation.

The intention behind an access arrangement is to meet the particular needs of an individual pharmacist without affecting the integrity of Practice Review.

2.3 Definition of Disability

The Equal Status Act defines disability as:

- a) the total or partial absence of a person's bodily or mental functions, including the absence of a part of a person's body;
- b) the presence in the body of organisms causing, or likely to cause, chronic disease or illness;
- c) the malfunction, malformation or disfigurement of a part of a person's body;
- d) a condition or malfunction which results in a person learning differently from a person without the condition or malfunction; or
- e) a condition, disease or illness which affects a person's thought processes, perception of reality, emotions or judgement or which results in disturbed behaviour.

3.0 REASONABLE ACCOMMODATION PROCESS

3.1 Scope of Reasonable Accommodation Process

The reasonable accommodation process (RA process) as operated by the IIOP for Practice Review, is designed to cover pharmacists who intend on presenting themselves at the Practice Review event, and who are affected by one of the following:

- Hearing Impairment or deafness
- Speech Impairment
- Dyslexia
- Learning difficulties
- Mobility problems which may restrict access to certain rooms
- Physical Impairment
- Temporary conditions due to illness or injury

Any pharmacist who feels that they are unable to present themselves for Practice Review is required to contact the Pharmaceutical Society of Ireland (the PSI) directly as this will be managed through their extenuating circumstances process. Such requests are beyond the scope of this reasonable accommodation policy.

3.2 The Process

Student, Academic and Regulatory Affairs (SARA) within the Royal College of Surgeons in Ireland (RCSI) will facilitate the management of applications for reasonable accommodation on behalf of the IIOP. The process for applying for reasonable accommodation is as follows:

- a) Pharmacists wishing to apply for reasonable accommodation must forward a completed application form (See Appendix 1), with supporting medical documentation, to SARA via email (practicereview@rcsi.ie) **within four weeks** of receipt of the initial email from the IIOP advising them of the arrangements for Practice Review.
- b) Participants should send the original copy of their medical documentation to SARA **within one week of closing date of applications**. Medical documentation sent at a later date will not be considered. All reports will be returned at the participant's request. SARA will not be able to accommodate a reasonable accommodation request if there is insufficient time between receiving the medical documentation and the date of the Practice Review event.
- c) Upon receipt of the medical documentation SARA may request additional evidence if deemed necessary.

4.0 SUBMISSION OF EVIDENCE

Appropriate evidence of need must be provided to SARA within one week of closing date of application. It should provide the relevant information of the nature and extent of the disability and confirm that without reasonable accommodation the pharmacist would be at a substantial disadvantage.

The original medical documentation could be supported with:

- a) a full report from a clinical psychologist or a psychiatrist; or
- b) a letter from a hospital consultant; or
- c) a letter from a local/national disability organisation; or
- d) a letter from a Speech and Language Therapist

When supplying a report in the case of dyslexia, the assessment should have been completed at the age of 16 years or over.

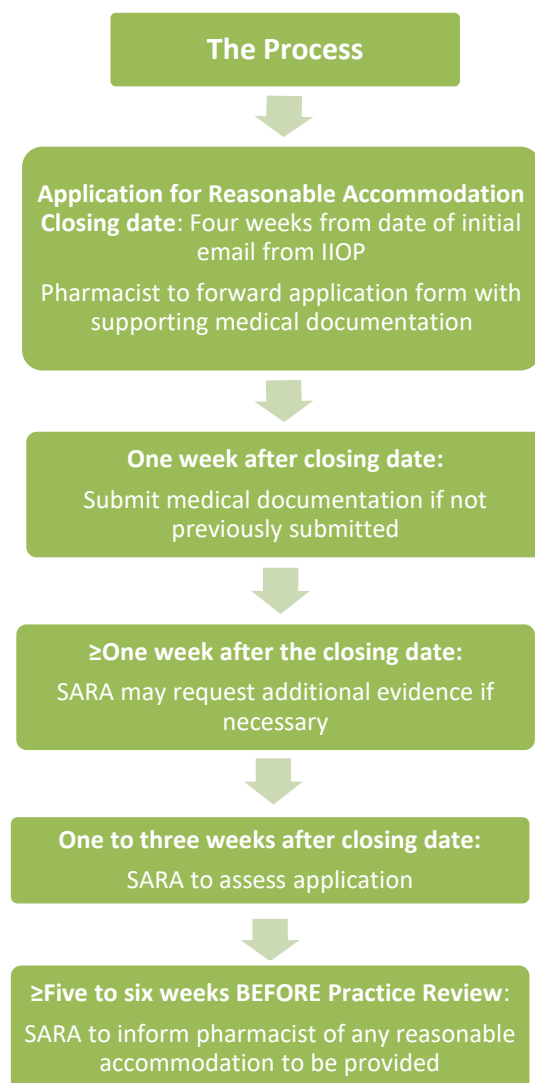

Please note that disclosure of personal and medical information is confidential and no information disclosed will be provided to a third party without consent at any time.
