Background & Development

- **Purpose of Training**

- The CCS training programme is designed to equip pharmacists with essential skills under the Common Conditions Scheme. Standardised approach.
- Under S.I. No. 507/2025 - Pharmaceutical Society of Ireland (Education and Training required to prescribe medicinal products in accordance with a Common Conditions Service) Rules 2025 completion of this eLearning is a **regulatory requirement** for anyone wishing to provide the Common Conditions Service.

- **Multidisciplinary Collaboration**

- Pharmacists, GPs, patients, clinical advisors, eLearning designers, and regulatory experts collaborated closely to develop the programme.
- Evidence-based content, practical, accessible and engaging for learners.

Programme Overview

- **Programme Structure**

The programme includes one core module and eight condition-specific modules. Set up as two courses on IIOP Platform.

- **Core Module**

- The core module provides essential legal and ethical considerations, as well as prescribing competence, guidance on documentation, communication and AMS.
 - **Four-Step Module Structure - Conditions**
 - Modules follow a consistent four-step approach: patient assessment, checking protocols, treatment options, and special considerations.

- **Interactive Learning**

Modules use videos, case scenarios, knowledge and reflection checkpoints and assessments.

- **Completion and Certification**

Successful completion involves MCQ. **Two certificates required for service provision.**

How to Complete Training

	→ Common Conditions Core Module	COMMON CONDITIONS SERVICE	 15 SEP, 2025 Book me to this event  EDIT
	→ Condition Specific Training Modules	COMMON CONDITIONS SERVICE	 15 SEP, 2025 Book me to this event  EDIT

Accessible on Any Device

Training can be accessed from any device, with desktop providing the best experience for learners. Learners can progress at their own pace, completing training in short sessions or all at once.

Support and Resources

STRUCTURE OF COMMON CONDITIONS MODULES

Common Conditions Structures...

The structure of content for each of the eight common conditions in the CCS programme will follow the same four step approach.

Each module will contain information on:

- Patient assessment
- Checking the protocols
- Treatment options
- Special considerations

Next Steps

- **eLearning Programme**
 - eLearning will be available through IIOp 'Courses and Events' next week. Announced via email and social media channels.
 - Completion of the training is mandatory before delivering CCS.
- **Ongoing Support**
 - Continuous support will be provided by IIOp through additional learning options, webinars, dedicated clinical topic webinars, Resource Hub.
- **Feedback**
 - Participant feedback is crucial to the inform further supports for the profession.
